## We want to hear from you!

### Inpatient Care Surveys—Open from March 13th-27th

The Pennsylvania Office of Mental Health and Substance Abuse Services (OMHSAS) has begun the process of reviewing and updating the regulations (state requirements) for the inpatient level of care. **This includes services provided in private psychiatric hospitals, psychiatric units in a general hospital, residential treatment facilities for adults (RTF-As), psychiatric residential treatment facilities for youth under 21 (PRTFs) and extended acute care (EACs) settings.**

In our initial stakeholder groups there was a desire to hear the thoughts and opinions of individuals directly involved in these services who do not regularly have the opportunity to participate in statewide planning meetings. As a result of those conversations we have created a number of surveys to ask different groups of people to provide information to the statewide workgroups. There are surveys for the following groups: nursing staff, clinical staff, direct care staff and individuals who have, or are, receiving inpatient services.
