**CPS/PET Training Application Part 6:  
*Creating the Best Path for a Successful Training.***

**As human beings, most of us experience challenges of one sort or another.**

Many of us in recovery have great **self-awareness** and an **attitude of resilience**. These things help us keep moving forward even when something seems to be “getting in our way.”

Many of us learn to recognize when something “could get in our way.” We learn how to **be prepared** in case those things show up. We learn that we can **take action** to prevent a “challenge” from becoming a “roadblock” that prevents us from reaching our goals.

The questions below are about **Potential Challenges** and things you can do to continue moving forward even if challenges arise.

**Please know that identifying a challenge will not keep you from the training. It will give you and your identified support (including our training staff), the opportunity to find support for that challenge so you can complete the training. Please be thoughtful and thorough with your responses.**

**Attendance is very important! No more than 8 hours of absence are allowed. What, if anything, could get in your way of meeting the attendance requirements for training?**

---

---

---

**What advanced steps can you take so that it is less likely this potential challenge will “get in your way”?**

---

---

---

**What other actions could you take if you start to see you are having challenges with attendance?**

---

---

---

**There is interesting schoolwork in our training!** (Daily reading of 20 pages and more, daily homework, and daily tests). **What potential challenges related to completing the “schoolwork” required for class might you experience?**

---

---

---

**If you think you may experience challenges with schoolwork, what might help you address these challenges?** (Feel free to describe learning strategies that help you. Also feel free to describe supports you can put in place to help you.)

---

---

---

**If you think you may experience challenges with schoolwork, what can your instructor do to support your learning process? What can other people do to support your learning process?**

---

---

---

**A primary goal of the training is to prepare students for employment  
in the field of Peer Support.**

What potential challenges, if any, do you see that could get in your way of getting a job after you graduate?

---

---

---

Considering these possible challenges, what can you do to prepare for these possible challenges? (Feel free to describe things you can do to prepare for the job search process.)

---

---

---

If you think you may have challenges with getting a job, what can others do support you in this process? (Feel free to describe what family, friends, the Voc Rehab Case Management site, or other support people can do to assist).

---

---

---

Is there anything else you would like to share with us?

**CPS/PET Training Application Part 7: Two More Action Plans!**

We encourage prospective students to be thinking about ways to “clear the path” for excellent attendance at training. While most of the time, students have great attendance, life can happen and things can get in the way of getting to class on time.

One thing that helps is to have a **Back-Up Plan for Transportation**. And if you have child care needs, having a Back-Up Plan for child care is great too!

**Please complete your Plan A and Plan B below.**

**Plan A – My Primary plan for transportation to training is:** \_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_

**Plan B – My Secondary Plan should Plan A not work out is:** \_\_\_\_\_

Another challenge to great attendance can be child care. Please complete your **Child Care Plan** (if applicable) below.

## **Peer Employment Training Application**

### ***Part 8: Reading Introduction***

## **An Introduction to the kind of reading material we use in Peer Employment Training.**

As an applicant to Peer Employment Training, we want to make sure you will have what you need to succeed in class. Part of this involves making sure our reading materials will work for you.

The article on the following pages comes from the Workbook we use in class. Please read it and answer the “Content Questions” that follow. When you finish the “Content Questions,” please answer the “Survey Questions.”

#### **Please Note:**

- You can take as much time as you need with your reading and with the questions.
- We ask that you do this reading and the questions that follow ***without assistance from another person.*** That way, if you do need additional assistance with the reading material in class, we can have a way of knowing that in advance.

**Please note** that the purpose of this activity is to help you and your supporters determine...

- If our learning materials suit your individual learning needs.
- If you might benefit from educational accommodations should you enroll in our training program.

In this particular reading passage, we hear from a person who received peer support services. After reading what Nathan has said about his experience, please answer the question that follows as you comprehend from the reading.

*Approximately one year ago I was diagnosed with a serious mental illness. I was depressed and suicidal. I was put in the hospital. RI International had Peer Support Specialists working there and I met a couple of them. I remember these people being able to bring the first messages of hope to me. It was like being stranded out on the ocean, not knowing how much space, how much time I had left, just drowning in a sea of desperation. The Peer Specialists were like the first friendly vessels that sailed out to me and engaged me. I was able to get something from them because they came from the heart. They had walked the walk. I got this message that there was something else left in life. Through this contact with them that I was able to gather up enough strength that once I got out of the hospital I was able to grasp the message of hope and eventually get into the program at RI International. I just don't have the words to describe the things that having a peer support specialist has done for my life; the opportunities, the rejuvenation, the sense of renewal of life. It's similar to breathing life that had been taken out of my body. It's almost like a new breath was brought in. I realized that there is something wonderful left out there.*

For Nathan, connecting with peer support had a deep impact. Take a moment to write down what you learned from Nathan about what peer support meant for him.
